La Thuile

Aosta Valley, Italy

11TH ALPINE POPULATION CONFERENCE

ALP-POP 2022

CALL FOR PAPERS

FOR INFORMATION

www.dondena.unibocconi.it

Alp-Pop brings together scholars interested in population issues across several disciplines, including demography, economics, epidemiology, political science, sociology and psychology. The conference emphasizes empirical rigor and innovation over a given topic or geographical area, and meets the challenges of interdisciplinary and international audiences.

Alp-Pop scholars confer both formally and informally. A traditional conference program (paper and poster presentations) mixes with group activities in a world-class winter resort. The conference location, the Hotel Planibel in La Thuile (Aosta Valley), is next to the ski-slopes, and is in close proximity to the airports of Geneva and Torino/Milano.

THE KEYNOTE SPEAKERS ARE

JENNY TRINITAPOLI

University of Chicago

SETH SANDERS

Cornell University

The deadline for submission of original papers or extended abstracts is 15th December.

Please submit your paper by sending an email to Arnstein.Aassve@unibocconi.it. Communication of the acceptance of papers will take place by 6th January.

Please take note that contrary to previous years, the conference takes place in late March as opposed to mid-January. La Thuile is however a resort with high altitude skiing, so conditions should remain very decent. However, the conference sessions will take place in the afternoons instead of the mornings.

Participants are expected to seek their own funding. Special-rate rooms have been reserved at the conference hotel with arrival on March 27. The hotel has been refurbished for this season. The conference starts in the afternoon and runs until the afternoon on March 29th.

Participants will receive information on how to reach La Thuile and regular updates on the conference organization – including information about any COVID restrictions that may be in place.

Needless to say, the conference will be IN PRESENCE
